

2009 Phaeton Product Changes

- New window treatment designs- Hardwood center with wrought iron design
- New day/ night shades- Roll ease with pull cords
- Radius shower stalls and doors
- New Pfister shower mixing head
- Bedroom redesigned to accept a DVD and a satellite receiver
- Bedroom ceiling fan is standard
- New brand of monitor panel
- In the sewer compartment, the main panel with labels is powder coated for a cleaner appearance
- Rear wardrobe will have automatic lights when doors are opened
- There is a sliding cover which will close off the light and reduce heat from the skylight above the shower
- The driver side front door is now a side opening door. This is the the exterior door where the T-handle to open the generator is located
- The electrical components (phone hook up, cable hook up, auxiliary satellite hook up) have been relocated to the electrical compartment instead of the sewer compartment
- The round antenna which receives digital and analog is now the standard antenna. This will delete the Winegard crank up antenna
- New key ring fobs will unlock and lock the entry door only, not the compartment doors. There will not be a touch pad on the assist hanle.
- Residential refrigerator option. This will include 6 house batteries instead of 4 and also a 3000 watt inverter instead of a 2000 watt. N/A on 40 QDH and 40 QSH
- The transmission shifter pad is moved forward
- Wooden heat duct registers
- New wall board design
- New in dash GPS/ stereo option
- 3 A/Cs and 10,000 watt generator option
- Slide out drawer inside the OH cabinets on each side of the microwave/ convection oven. The drawers will enable you to see what is stored in the back of the cabinets
- Chrome mirrors are now standard
- Window awning package is now standard
- Side camers activated with turn signals are now standard
- Dual MCD windshield day/ night shades are now standard
- Passenger side air coil sofas are optional- leather only, no cloth
- Memory foam mattress option available- Queen only on 36, King only on 40s and longer
- The microwave/ convection ovens will be vented through the outside wall
- The LP tank will be housed in the front passenger side compartment and the batteries will go in the area where the LP tank was
- New exterior designs and color choices
- Three new interior color choices
